GAINESVILLE, May 12.—There has been a great deal said in the newspapers about the removal of our worthy postmaster, A. P. Lawshe. We think if those who are trying to secure his removal, will come to Gainesville and see the office he has built, and know how thoroughly and satisfactorily the office is run, and hear the verdict of those who know the facts, that his removal would no longer be asked. The warrant cess was opened yesterday afternoon and Hurley put upon the stand. He testified that he does not know where the money is or in whose poss-ssoin it is. That he has not seen the money since he put it into the safe and does not know who had it or who has it; that he was convinced that Slater stole the money and that M. C. Irish was the owner; that he adopted the plan described to prevent the money from falling into the lawyers or anybody else's hands. He refused to answer the questions propounded to Hurley, under the section of the code which allows a witness to so do when the answer may serve to criminate him, bring his family or name into disrepute, or work a forfetture upon his estate.

Mayor Corput sworn, stated that he made the arked where he last saw the money, he asked permission to consult with counsel before answering, and the case was adjourned until 9 a. m. to day.

In the contest over less important matters, Stanley Matthews seems to have become inevitable as a justice of the supreme court. It is a pittle loss favoritism, for his first nomination by President Hayes. There was even less excuse for his renomination by President Garfield. It was a weak concession to the retiring president. There is now no sufficient reason for his confirmation. There are a hundred men in the country better qualified for the position, and scarcely one who would be thought of for it whose public record would render his nomination so objectionable. Is Matthews inevitable?

Labor Saving.

The demand of the people for an easier method of preparing kidney-Wort has induced the proprietors, the well-known wholesale druggists, Wells, Richardson & Co., of Burlington, Vermont, to prepare it for sale in liquid form as well as in dry form. It saves all the labor of preparing, and as it is equally-efficient it is preferred by many persons. Kidney-Wort always and everywhere proves itself a perfect remedy.—Buffalo News.

John Albus.

Perry, Ga., April 14, 1879. I have known and watched the use of the medicine known as the Swift's Syphiltic Specific since the year 1827—over 50 years—and have never known or heard of an instance of failure to cure when properly taken. I commenced the use of it myself, on my slaves, between the years 1850 and 1855, and continued to the close of the wars as also did a number of my neighbors, and in every case that came within my knowledge it effected a cure. In the fall of 1835 my brother-in-law, George Walker, bought at auction a slave not warranted. After the purchase, it was discovered that he had Syphilis, and had suffered with it for twelve years. His head was without a hair on it. Immediately upon getting possession of him he commenced to treat him with this remeddy, and in four weeks he was sound and well, and in a short time he bad as fine a head of hair as was ever owned by a negro. He owned the slave for many years, and he never had any return of the disease, and never lost a day's work. This is only one among hundreds of instances of remarkable cures made by this medicine. In all my past life I have never known a remedy that would so fully accomplish what is recommended for.

I have had remarkable success with your Swift's S. Specific. I have cured several cases, and cured them permanently in a very short time. One case which I am now treating with it was given up to die, and after using three bottles is now so far recovered that I most remarkable case of all was a lady with medullary cancer of the womb, for most remarkable case of all was a lady with medullary cancer of the womb, for uning one bottle, I am satisfied she will soon be cured.

J. Wylie Quillian, M. D.

Swift's S. Specific is a vegetable preparation made from roots gathered from the forests of Georgia, and is not offered to the public as a triumph of science, but as a restoration from God to man. This medicine has been used in a certain locality in Georgia ever since the retirement of the Creek Indians from the state. It was communicated by these Indians to the white settlers, and has cured thousands of the worst cases of the disease. We say to the sufferer—take it—and it will relieve you. It will thoroughly remove all taint of the disease from your system, and will bring back to you your health and happiness. Begin with the usual dose of two tablespoonsful three times a day, and increase the dose to two or three times that quantity, or until it causes an eruption. Take it strictly according to directions, and it will cure you sound and well. Call on your druggist for a copy of a little book called The Young Men's Friend, and read it. If he cannot furnish it, send to us and we will mail it to you free. THE ANNUAL ELECTION FOR PRESIDENT,
Vice-President, Secretary, Treasurer and Four

Ladies' Dress Goods in profusion from Calicoes at 5 cents per yard to exquisitely in the sumusually full with something to please every taste.

Something New.

The largest and finest selection of Meriden Britannia Co's. Electro Silver Plated Ware just received; also a large stock of flue Watches and Jewelry at astonishing low prices. I can also show to my customers ten times as many of the celebrated 187 Roger Bro's. Triple Plated Spoons, Forks and Knives as any other house in the city, at manufacturers' prices, as my wholessle trade in these goods is very extensive, which enables me to sell for at retail what other houses have to buy them at wholesale.

They are of every imaginable style and

so per yard. This department is unusually full with something to please every taste. He has just received and opened many patterns that are entirely new in this market. They are of every imaginable style and shade of color—beautiful and extremely cheap. The ladies should be sure to examine his goods in this department early the coming week. The weavers and dyers have done their best to please them, and Captain Brotherton has selected the most tasteful and elegant of their productions for Atlanta.

A large assortment of bleached and unbleached domestics are kept on sale at prices ranging from 3 cents per yard up to the very best makes. You can supply yourself with whatever brand you may farcy from this heavy stock. His stock of fancy goods is exquisite. We do not know how to even begin in writing of the innumerable details in this department. The counters and cases set apart for this branch of his business are perfectly splendid, costing more than one thousand dollars. They are made of the very best material, put together by master artisans and adapted to the convenience of salesmen and customers. Even a glance within these cases reveals a superb and varied stock of Ribboes. Laces Embroidery, Insertings, Neckwear, Handkerchiefs, etc., etc., etc. of course we have not space in which to give the prices of this line of goods, for they are as various as the articles; but we venture to say that he cheaper goods can be found in Atlanta.

Two separate and distinct cases, most ingeniously arranged for the protection and exhibition of a large assortment of Kid Gloves, have been provided, at heavy expense, and these are filled with the most splendid selections from the celebrated manufacturers of the United States and Europe. All sizes and all colors will be furnished at the very lowest prices, for which first class articles in this line can be soil.

We must conclude by the general declaration which an examination of his stock will sustain, that Captain Brotherton's establishment, at the corner of Whitehall and Mitchell streets, is the place to get bargains in any department—the place to yy the most for any given sum of money, buerefore, obey the law of self-protection ps inding your money there.
